CORPORATE INFORMATION

Company Name	: G ECHO TECH Sdn Bhd
R.O.C Registration	: 1501572-V
Incorporation Date	: 2/3/2023
Business Address	: Level 3 Wisma Suria, Jalan Teknokrat 6, 63000 Cyberjaya, Selangor.
Contacts	: Safuan Somari (+6012-5126117) Amirul Jamaludin (+6010-3665875)
Fabrication Yard	: Lot PT 19213, Jalan IJ 3B/5, Kawasan Perindustrian Jakar 3, Chukai, 24000 Kemaman Terengganu
Paid-up Capital	: RM 100,000.00
Banking Facility	: Maybank Islamic Berhad

VISION

To be the premier provider of cutting-edge engineering solutions in industry, driving innovation, efficiency, and sustainability to power a brighter future.

MISSION

1. Providing innovative and reliable solutions that meet the evolving needs of our clients.
2. Ensuring the safety, reliability, and efficiency of critical energy infrastructure.
3. Fostering a culture of continuous learning and development among our team members.
4. Upholding the highest ethical and environmental standards in all our operations.
5. Contributing to the growth and success of our clients, partners, and the communities we serve."

SERVICES

Engineering Service Provider

Electrical, Instrumentation & Control System

We have the capability to offer comprehensive solutions.

- Electrical & Instrumentation Engineering, Installation, Testing & Commissioning;
- Control system solution: We collaborate with leading control system suppliers such as ABB, Omni, and Emerson. However, our independence and technical expertise empower us to deliver control system solutions that assist our customers in cost management and boosting profitability.

Engineering Project Package in Instrumentation & Control

Our skilled personnel can offer the following services in our expertise:

- Engineering, Consultancy, Project Management, Construction, Site Installation, Testing, and Commissioning for Electrical, Instrumentation, Civil, and Structural components.
- Engineering, Consultancy, Installation, Testing, and Commissioning for Industrial Device Communication protocols such as Modbus RTU or ASCII, TCP, DeviceNET, Ethernet/IP, OPC, and more.

Software Engineering

We have the expert to perform software engineering in C#, WPF and ASP.Net programming languages and our team experience in industries as follows:

- Oil & Gas
- Palm Industries
- Agricultural
- Automation in General Industries

SERVICES

Engineering Service Provider

Piping & Structural Fabrication

We have the capability to perform steel fabrication in-house, with a qualified internal welder who can fabricate various equipment as follows:

- Pressure Vessel
- Tanks
- Process & Chemical Skid / Module
- Differential Pressure Meter (Orifice Plate, Restriction Orifice, Venturi Meter, Cone Meter, Etc.)
- Other Equipment

Civil & Structural Works

We has been undertaking civil works construction for Metering Station in peninsular Malaysia. This scope ranges from earthworks, equipment foundation, cable trenches, pipeline works, shoring system, control building, drainages, access road, pipe support foundation and metering skid foundation.

We offers a wide range of civil and structural engineering construction ranging from steel structures erection, reinforced concrete structures and associated drainage structures.

PRODUCTS

FLOW COMPUTER

GE CIMPLICITY HMI

HUMAN MACHINE INTERFACE

CONTROL PANEL & JUNCTION BOX

PRODUCTS

Pre-Fabricated Cabin House/Office
